

High Definition Video Communication Solutions

To meet the increasing demands of quality assured communications experience when conducting business, PCCW Global provides enterprise customers and services providers with comprehensive High Definition Video Communication Solutions bundled with global IP connectivity.

Managed HD Video Communication Solution

Customers can enjoy hassle free deployment of HDVC terminals, and seamless communication on PCCW Global's fully managed, and Quality of Service-aware IP Platform. PCCW Global worldwide footprint enables customers to conduct point-to-point or multi-party video conferencing around the world. Protected by PCCW Global fully resilience network, customers can remain connected at all times.

Network diagram

Key benefits to your business

- Facilitate internal and external collaborations to maximize productivity
- To cut cost and save time by replacing travel with face-to-face videoconferencing
- Single point of contact from network to hardware, to improve operation efficiency
- Prioritize video, voice and data traffic on a single network for best utilization of network resource and management

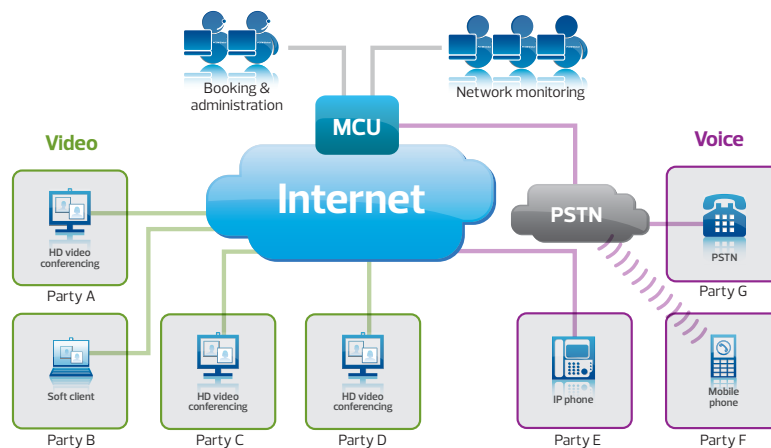

Specifications

- Choices of different brands and models for your business requirements
- HD display and camera resolution of up to 1080p
- Supports H.323 or SIP and backward compatible with Standard Definition (SD) VC equipment
- Minimum of 1Mbps per call for HD pictures (2Mbps recommended)
- 10/100/1000 BaseT Ethernet interface connected to MPLS/IP network
- Deployment scale ranging from desktop HDVC to conference room suite

Managed HDVC Multi-Point Communication Solution

Customers can utilize PCCW Global Hosted HDVC platform to extend their video and audio communications capability globally to allow more participants to join into a HD video conference from multiple locations through different access media and different mobile devices.

Network diagram
